Claims 15,16,20-29 are finally rejected as set forth in the Office Action dated

03/10/03

Applicant's arguments filed 09/15/03 have been fully considered but they are not

persuasive.

Figures 9A and 9B only show interrupted lines to indicate a straw is located

inside the container. They do not show the specific orientation of the lower portion of the

straw as claimed. There is on further description in the specification to further detail the

specific orientation as claimed. Applicant only speculates what that dotter lines in the

drawing may do. Any claimed specific arrangement of the straw inside the container is

considered as new matter.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of

time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire

THREE MONTHS from the date of this action. In the event a first response is filed

within TWO MONTHS of the mailing date of this final action and the advisory action is

not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the

advisory action. In no event will the statutory period for response expire later than SIX

MONTHS from the date of this final action.

Any inquiry concerning this office action will be directed to Examiner Joseph
